

# WILSON TO VISIT WEST

President Will Accept  
the Challenge of the  
Senate of the U. S.

WASHINGTON, June 16.—President Wilson, facing a divided senate, has decided to carry his fight for ratification of the league of nations covenant directly to the people in a country-wide speaking tour. He expects to begin the trip as soon as he returns from Paris.

The president's decision was revealed here today coincident with receipt of a message in which he declined to give the senate, in advance of signing, the official text of the peace treaty requested in a resolution adopted over vigorous opposition of the league supporters. Neither development caused great surprise here, but each served to emphasize the president's position and to provide further subject matter for the debate which begins tomorrow on Senator Knox's resolution to put the senate on record against accepting the league covenant along with the peace treaty.

A tentative itinerary for the speaking trip has been completed by Secretary Tumulty but it will not be made public until Mr. Wilson finally has approved it. It is expected, however, that the tour will carry him into the far west and will occupy many days. It was said he probably would devote most attention to western states where league opposition has gained the greatest headway.

As nearly as officials here can predict, Mr. Wilson will reach Washington about July 1, will lay the treaty formally before the senate and then possibly on Independence day, will begin a swing around the circle that will eclipse in extent and in spirit all his previous direct appeals to the people.

It is regarded as certain that opposition speakers will follow the president's special train through the doubtful states. Opposition senators generally, however, declined today from making any comment on the executive's plan of campaign. The message declining to send the treaty text also was received in silence when it was read to the senate but Senator Johnson, Republican of California, who introduced the resolution making the request, is expected to make the president's action the subject of a senate speech within the next few days.

## Sioux City Fails To Recall Its Present Mayor

SIoux CITY, Iowa, June 16.—Mayor Wallace M. Short was the winner in the recall election today, defeating H. T. Carney by 2,100 majority, four hundred more than he received when he was elected in April, 1918, although the local vote was less than in 1918. The opposition to Short alleged the mayor was in sympathy with the I. W. W. and made the principal fight on Short on this issue. The recall movement was launched after Short spoke at an I. W. W. convention here several weeks ago. Short during the campaign denied he was in sympathy with the I. W. W. He was strongly backed by the labor organizations of the city.

## HE'S PRESIDENT OF TELEGRAPHERS' UNION

Konenkamp is president of the Commercial Telegraphers' Union of America. He declares that 70,000 telegraphers will be affected by the strike order which is issued in protest of the attitude of Postmaster General Burleson toward the union and the refusal of wage demands.

## GEN. ANGELES IS QUITE BITTER

Declares He Would Have Defeated Villa If Americans Did Not Interfere.

WITH GENERAL FELIPE ANGELES IN THE FIELD, Mexico, June 16. (By the Associated Press).—Some where to the southwest of Zaragoza, sixteen miles from Juarez, tonight is General Felipe Angeles, moving with his small personal bodyguard to the south and west. He is bitterly disappointed as the result of the crossing of American soldiers into Mexican territory last night in pursuit of General Francisco Villa, supreme in command of all anti-government forces in northern Mexico.

General Angeles left his headquarters at 6 a. m. and twenty minutes later, General Villa, whose headquarters were a little to the south of General Angeles, about a twenty-five minute ride, was also moving south. Before the attack on Juarez last Saturday night, General Angeles stated emphatically to the correspondent that he had not ordered any attack on Juarez and that he was not participating in one; that General Villa was in command of all troops and that he personally was not leading any forces, and that his only reason whatever for being so near Juarez was to act as a peace maker between the government forces and General Villa's army.

That General Angeles was sincere in this statement is borne out by the fact that as long as the correspondent was with him the only forces visible around General Angeles' headquarters were his own personal bodyguard and a few servants for his men and horses.

General Angeles said that the attack Saturday night was nothing but a test of strength between the opposing armies and it was led in person by Martin Lopez who entered the city about 1:30 a. m. Sunday, with less than 300 men, split up in three sections. If there had been 500 more men with Lopez Saturday night, the murmurings against the United States and its citizens today would probably never have been uttered.

According to plans, the attack was most feasible from the east as the west was too well protected by searchlights and the guns from Fort Hidalgo. General Francisco Madero and General Villa both used the west side of the city in their previous attacks.

The attack on the city which started at 3:15 p. m. yesterday afternoon was to be the finish fight. General Angeles said that if the Americans had not come over when they did General Angeles would have had complete occupation of the city in another hour or two.

ALBANY, N. Y., June 16.—The New York legislature, without a dissenting vote, tonight ratified the federal woman's suffrage amendment. New York is the sixth state to ratify.

# FORTS IN GULF ON FIRE

Seven Bolshevik Warships Have Hoisted the White Flag.

LONDON, June 17.—The north Russian general staff directing operations against Petrograd reports the fortress of Cronstadt on the gulf of Cronstadt northwest of Petrograd to be on fire, according to a Helsinki dispatch to the Daily Mail. Seven bolshevik warships have hoisted the white flag, the dispatch states, and will surrender to the British squadron operating in the Gulf of Finland. Several forts near the fortress of Cronstadt have also raised the white flag, it is said.

The capture of the fort of Krasnaya-gorka, across the bay from Cronstadt, the occupation of which by white guards was announced from Stockholm yesterday, will, it is said, enable the north Russian force to strengthen its thrust against Petrohof and advance quickly on a wide front. Bolshevik garrisons near Krasnaya-gorka went over to the white guards yesterday. The north Russian force has taken during the present campaign 22,000 prisoners and 87 cannon.

## MEXICO IS NOW SILENT

Officials Refuse to Comment on the Dash of Americans.

MEXICO CITY, Monday, June 16. (By the Associated Press).—The Mexican government has nothing to give out for publication regarding the crossing of American troops from El Paso into Juarez, according to a statement made tonight at the offices by General Juan Barragan, President Carranza's chief of staff.

General Barragan, who was in conference with the president and cabinet ministers virtually all day, gave out a copy of official dispatches from Juarez, Hermosillo and other border points, giving details of the fighting which were almost identical with those of the Associated Press dispatches received last night.

One official dispatch from General Candido Aguilar, confidential ambassador of President Carranza, in the United States, stated that he had made representations to the state department in Washington regarding the incident. Questioned regarding the stand taken by General Aguilar, it was stated by General Barragan that General Aguilar would give out the necessary information.

The tone of official dispatches seemed to indicate that Mexican officials on the border accepted the American claim that the attack on the Villa forces by American troops was for the purpose of protecting American lives across the frontier.

The statement made by General Angeles that his forces could have defeated the Villistas without American help is concurred in at military headquarters here.

## Free Speech Is Demanded by the Union Leaders

ATLANTIC CITY, N. J., June 16.—A committee of twenty-four presidents of international labor unions interested in the organization of workers in the steel industry, headed by Samuel Gompers, president of the American Federation of Labor tonight in conference, decided immediately to launch extraordinary organization efforts in the great steel producing regions of the country, especially the Pittsburgh district, and fight there for the "right of free assemblage, free speech and a free press."

RATIFIES SUFFRAGE. COLUMBUS, O., June 16.—The Ohio general assembly today ratified the federal woman's suffrage amendment and passed a bill that will give Ohio women the right to vote for presidential electors in 1920 should the federal amendment not be in effect at that time.

PARIS, June 16.—(By The Associated Press).—President Wilson will leave Paris for his visit to Belgium, at 10 o'clock Tuesday night, it was announced tonight.

## HE DIRECTS WAR ON TUBERCULOSIS

Hatfield is managing director of the National Tuberculosis Association, which will co-operate with the federal government in a nation-wide campaign against the White Plague of which there are 1,200,000 active cases in the country. The association meets in Atlantic City June 14 to 17.

## COMPLETE NEW TANLAC PLANT

Magnificent New Laboratory Has Daily Capacity of 36,000 Bottles.

What is said to be one of the largest pharmaceutical laboratories in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac, the well known medicine, which according to recent reports is now having the largest sale of any medicine of its kind in the world.

The erection of the new plant was made necessary by the rapid growth of the business, as the older plant was found to be wholly inadequate to supply the ever-increasing demand which at the present rate of sale will amount to more than five million bottles for the present year alone.

By the erection of this plant the manufacturers of Tanlac are giving to the world just one more evidence of the remarkable growth and expansion of their business, and of their absolute confidence in its future.

This announcement will be read with interest not only by the many thousands of Tanlac agents scattered throughout every state of the union and throughout Canada, but to the millions who have used it beneficially as well.

The new building occupies 60,000 square feet of floor space. It is six stories in height, practically fire-proof throughout, and is of striking architectural design. It also has private railway facilities.

This beautiful new structure now stands in striking contrast beside the older building where Tanlac was first made.

Visitors to the laboratories are strongly impressed with the extremely modern character of the equipment. Everything is provided and splendidly arranged to promote systematic and rapid production. The very latest machinery and devices known to invention and pharmaceutical science are here used.

The interior throughout is finished in spotless white, and all of the large force of employees wear white uniforms, which they are required to change daily. The main offices on the first floor are all finished in Carara marble and mahogany.

The entire process of manufacture is conducted under absolutely sanitary conditions. Even the bottles made expressly to contain Tanlac are washed and sterilized electrically by the ultra violet ray process. They are then filled by automatic machinery and the finished product is therefore never touched by human hands.

When Tanlac was introduced into Canada history repeated itself, and the demand which had been created in the United States was quickly duplicated in the Dominion provinces. As a result, it was recently found necessary to establish another Tanlac laboratory at Windsor, Canada, which is on a somewhat smaller scale than the plant at Dayton, but is no less modernly equipped.

These new facilities give a daily capacity of 36,000 bottles, but as Tanlac is rapidly being introduced into foreign countries it is probably only a question of a few years before even larger facilities will become necessary.

While the manufacturers are necessarily working for capacity production, it is a fundamental rule of the Tanlac laboratories that the quality of the medicine shall never be sacrificed to secure quantity output.

Uniform quality is guaranteed by a series of careful inspections by expert chemists, from the time the roots, herbs, and barks are received in their rough state from all parts of the globe until their medicinal properties have been extracted by the most approved processes. The finished medicine is then bottled, labelled, and shipped out to the tens of thousands of druggists throughout the United States and Canada, to supply a demand never before equalled for this or any other medicine.

The executive sales offices are located in Atlanta, Georgia, and occupy almost an entire floor of the Fourth National Bank building of that city.

Tanlac is sold in Ogden by A. R. McIntyre Drug Co. Two busy stores.—Advertisement.

## Busch Home in Chicago Is Robbed of Valuable Jewels

CHICAGO, June 17.—Jewels valued at more than \$25,000 were taken from the residence of Mrs. Nellie Magnus Loeb, daughter of the late Adolphus Busch, during a party on Sunday night, it became known today. The robbers worked within sight of the party on the front veranda.

# TROOPS AGAIN IN CAMP

They Kill 50 Mexicans,  
Take a Few Prisoners  
and Scatter Rebels.

EL PASO, Texas, June 16.—American troops that participated in the punitive expedition against the Villa rebels in and near Juarez last night and today, were billeted in barracks and camps on the American side tonight and were asleep before dark after their twenty-four hours of campaigning.

As a rear guard to the cavalry, artillery and engineers columns which would over the mesa from the river late today, seven ragged, Mexican prisoners were herded toward the Fort Bliss stockade by a detachment of the Fifth cavalry while another detachment drove a herd of 100 Mexican horses and ponies captured from the Villa forces to the remount station.

While no official report of the cavalry operations have yet been prepared for Brigadier General James B. Erwin and Major General Cabell, it was unofficially stated tonight at Fort Bliss that approximately fifty Villa followers were killed and prisoners, horses and mules captured.

One American of the Seventh cavalry, Corporal Chigas, was shot through the lung by a Mexican rebel on the south bank of the river.

After crossing during the night the cavalry column, supported by a battalion of the 82nd artillery, advanced and, at daybreak started scouting over the low, marshy fields in the elbow of the Rio Grande south of Ysleta, Texas. Capturing the seven prisoners before reaching the Villa camp, the cavalry was enabled to proceed, dismounted, to a short distance of the adobe headquarters when fighting was begun by the American standing in water up to their knees, according to cavalry officers. Four Villa men were killed in the first assault and the entire force, numbering approximately 200 men, mounted and escaped toward the southwest with the cavalry troops in pursuit. Crossing the plains and reaching the mesa land, the rebels scattered into small bands and Colonel James J. Hornbrook's Fifth cavalry pursued one band which continued toward the southwest for a distance of thirty-five miles before returning toward the river.

In the meantime Colonel Tompkins' Seventh cavalry, in temporary command of Colonel Howard R. Hock, deployed to the southeast and pursued another band of the Villa men. During this pursuit troops A and C of the Seventh cavalry executed a mounted pistol charge from the saddle and killed a number of the rebels. In the meantime the artillery placed shrapnel shells directly over the heads of the fleeing Villa force and many were killed.

After the two cavalry forces had pursued the rebels over more than thirty square miles, they formed a junction and returned to the American side of the river, accompanied by the artillery and Eighth engineers, who threw a pontoon bridge across the river.

The cavalry, artillery and engineers presented a tired, soiled and travel-stained appearance when they marched over the mesa to Fort Bliss tonight. The heavy cavalry horses had found difficulty in keeping up the speed set by the wiry little Mexican cow ponies. The men sat, saddle weary, on their mounts. Many had souvenirs of the Villa pursuit. Officers obtained silver spurs and many souvenirs of natives and crude equipment were brought back.

All of the seven Mexican prisoners professed to be either farmers in the valley or Carranza soldiers, none admitting having been with Villa. They had but six horses and mules.

## ROTARIANS IN GREAT STRENGTH

Three Thousand Have Arrived for the Convention in Salt Lake City.

SALT LAKE, June 16.—Rotarians took possession of Salt Lake today more than three thousand strong, and until tomorrow morning Rotarians will continue to arrive in special trains until the total has swelled to approximately five thousand persons.

Today was arrival and registration day and, with the exception of a meeting of the convention council this afternoon, no official business was transacted. Several hundred early arrivals crowded the downtown streets Sunday night, while this morning the traffic lanes from the depots to the hotels were blocked.

Early arrivals today included the Montana delegation, several hundred coming from Butte, Great Falls and Helena, the former bringing with it the famous Anaconda Copper Mines company band. The Idaho delegates brought with them a band of Indians from the Bannock reservation but the chief of the tribe, Tye-Hee, was disappointed for the conductor "kicked off" the train, the dog which the red men had been latching for a feast.

Atlantic City and New Orleans delegations arrived before Cleveland and
